

## Shower filter (30,000 liters) and reagent

EAN: 8425402331620

FABRICANTE: ALKANATUR

*It is ecological and certified, ensuring that it does not contain calcium sulfite E 226, a substance that can be harmful to health and the environment. It effectively eliminates up to 99% of chlorine and heavy metals present in shower water. This helps protect both your skin and hair from the damaging effects of these substances.*

### DESCRIPTION

The Alkanatur shower filter is a reliable option to improve the quality of the water in your shower. Here are its main features:

1. Long lasting: This filter has a filtering capacity of 30,000 liters of water, which means that you can enjoy its benefits for a long period of time before needing to replace it.
2. Two-Stage Filtration System: Utilizes a two-stage filtration approach for optimal results. In the first stage, the water passes through a polypropylene cotton (PP cotton) material, which helps trap solid impurities and sediments present in the water. In the second stage, the water is filtered through activated carbon fiber with a patented system, which helps to remove chlorine, heavy metals and other unwanted substances.
3. Ecological and certified: This filter has been certified as an ecological product and is guaranteed to be 100% free of calcium sulphite E 226, a substance that can be harmful to health and the environment. In addition, it has obtained certification from CACTI, a scientific and technological research center belonging to the University of Vigo, which supports its quality and effectiveness.
4. The Alkanatur shower filter is highly effective in improving the quality of the water you use during your shower. Here are its key benefits:
5. Elimination of chlorine and heavy metals: Thanks to its advanced filtration system, this filter can eliminate up to 99% of chlorine and heavy metals present in shower water. This allows you to enjoy a shower free of harmful substances for your skin and hair.

6. Disinfection and removal of impurities: The Alkanatur shower filter also has the ability to disinfect water, eliminating bacteria and other microorganisms that may be present. In addition, it effectively removes impurities such as sediment, particles and organic waste, giving you a cleaner and healthier shower experience.
7. Elimination of bad odors: If you experience unpleasant odors in the shower water, this filter may be the solution. Its filtering action helps to neutralize and eliminate bad odours, giving you a fresher and more pleasant shower experience.

### What's in the box?

#### 1. Shower filter

A 30,000 liter shower filter.

Ready for installation.

#### 2. Chlorine reagent

A chlorine reagent to be able to know the amount of chlorine in your shower water or any liquid in an easy and safe way.

How to use:

Pour 5-6 drops of Alkanatur chlorine reagent into 15 ml of water and compare it with the color scale that goes on the box.
