## Collagen and calcium 495 grams

**EAN:** 8470001777157    **FABRICANTE:** AQUILEA

Collagen is a protein found naturally in cartilage, bone, and skin, and is necessary for the structure and function of joints. Hyaluronic acid is an essential component for the functioning of the joints. Vitamin C contributes to the normal formation of collagen helping to strengthen the joints. Calcium, a mineral that contributes to the maintenance of bones. And Magnesium, Vitamin K2 and Vitamin D3 that favor the absorption and fixation of calcium in the bones.
