Fortedol joints with turmeric 280 Grams

EAN: 8470001845955 **FABRICANTE:** AQUILEA

Aquilea joints Forte Dol has a high concentration of turmeric which helps to improve flexibility and joint mobility. Chondroitin and glucosamine are necessary for the formation of ligaments, tendons and cartilage, they are found naturally in the body but they wear out and sometimes an external contribution is necessary. Collagen is a protein that contributes to the maintenance of bones and muscles under normal conditions. And, hyaluronic acid acts as a lubricant for the joints, so it is essential for their proper functioning.

In our online parapharmacy you will find this and other products.
