

## Hyaluronic acid essential cream 50 ml

EAN: 8420649113282 FABRICANTE: ARMONIA

*Hyaluronic acid cream deeply moisturizes the skin, promotes the production of collagen and more hyaluronic acid, maintains facial firmness, hydration, softness and luminosity.*

### DESCRIPTION

#### Anti-wrinkle cream with hyaluronic acid

One of the main properties of hyaluronic acid is its great capacity to attract and retain water. For this reason, its use in cosmetic treatments applied topically allows for deep rehydration of the epidermis of the treated area so that it looks smoother and, by increasing its thickness and volume, the wrinkles in the skin are also reduced.

Moisturizing face cream that prevents premature skin aging thanks to the collagen content. The combination of collagen and hyaluronic acid maintains the ideal level of moisture so that the skin looks hydrated, soft and revitalized.

Hyaluronic acid has great moisturizing power as it has an extraordinary ability to attract and retain water molecules.

Hyaluronic Acid Moisturizing Cream maintains the ideal level of moisture so that the skin looks hydrated, soft and luminous.

#### The most natural hyaluronic acid cream

Day cream with the natural ingredients necessary for healthy and vital skin. No parabens, no silicones, no paraffins, no dyes and no phthalates.

Enriched with pomegranate, an antioxidant that provides strength and elasticity to the skin, and puniceic acid, which regenerates and promotes blood circulation, as well as collagen, which delays skin aging and improves its vitality, giving it resistance, elasticity and smoothness. And finally, allantoin, known for its great healing and regenerating power.

#### Effects of hyaluronic acid on the face

With age, the skin loses its hyaluronic acid, which is why the first wrinkles and dryness begin to appear. It is important to keep the skin optimally hydrated at all times. If you keep your skin well hydrated, your face

will look smoother and brighter.

A treatment with hyaluronic acid cream and good sun protection habits will help keep your face hydrated for longer. Hyaluronic acid cream is a light-textured moisturiser that absorbs quickly without leaving a greasy feeling.

### Properties of hyaluronic acid cream

Hyaluronic acid cream deeply moisturizes the skin, promotes the production of collagen and more hyaluronic acid, maintains the firmness of the face and reduces skin imperfections. It helps regenerate, tone and reduce skin imperfections.

### Active ingredients

- **Hyaluronic acid:** has great moisturizing power as it has an extraordinary ability to attract and retain water molecules.
- **Pomegranate:** It has astringent power to regulate the secretion of substances from the skin. Pomegranate is known for its high antioxidant power.
- **Collagen:** protein that provides flexibility and moisture to the skin and connective tissue, which functions to maintain the firmness of the skin.
- **Allantoin:** helps renew the dermis.

**PARABEN FREE · SILICONE FREE · COLORANT FREE**
