

## Hyaluronic acid treatment 1 Unit x 2 ml

EAN: 8420649113558    FABRICANTE: ARMONIA

*Hyaluronic acid anti-wrinkle treatment with 97.4% natural ingredients. Formulated from two hyaluronic acids with different molecular weights in a lemon vegetable water base. It keeps the skin hydrated for 24 hours and fills in wrinkles. At the same time, it protects our skin from polluting factors and oxidation.*

### DESCRIPTION

Stimulates collagen production, combats sagging and fills wrinkles.

It has two types of hyaluronic acids:

**Crosslinked hyaluronic acid (high molecular weight):** means that it is linked together forming a structure where it retains water molecules, allowing immediate and prolonged hydration. It has antioxidant action. It has 5 times greater water retention capacity than normal hyaluronic acid.

**Acetylated hyaluronic acid (low molecular weight):** the penetration of this type of hyaluronic acid is much greater. This reduces the depth of wrinkles and stimulates the metabolism of the dermis to stop collagen degradation and repair the skin from free radicals.

**Organic vegetable water certified by Ecocert®:** biocompatible, rich in trace elements and mineral salts, which enhances the effectiveness of the active ingredients in the formula and guarantees the assimilation of the active ingredients it carries, promoting the effectiveness of the treatment.

Apply day and night to clean, dry skin on the face, neck and décolleté with light touches. Thanks to its fluid and light texture, it is very easy to absorb with a very small amount. You can replace the serum step in your facial routine or add a few drops to your regular moisturizing cream.

After application, if you notice tight skin, apply the usual moisturizing cream. If you have oilier skin, you can skip this step and go directly to the photoprotector.

You can use them in combination with the Vitamin C, Phytoretinol and Natural AHA's ampoule treatment to reinforce the anti-wrinkle action.

**VEGAN · CLINICALLY TESTED**

**WITHOUT PARABENS · WITHOUT SILICONES · WITHOUT PRESERVATIVES · WITHOUT DYES**

### INGREDIENTS:

- CITRUS LEMON FRUIT WATER\*.
- PROPANEDIOL.
- AQUA.
- METHYLPROPANEDIOL.
- XANTHAN GUM.
- CAPRYLYL GLYCOL.
- SODIUM ANISATE.
- SCLEROTIUM GUM.
- LECITHIN.
- PULLULAN.
- SODIUM ACETYLATED HYALURONATE.
- PENTYLENE GLYCOL.
- LACTIC ACID
- SILICA.
- ETHYLHEXYLGLYCERIN.
- SODIUM HYALURONATE CROSSPOLYMER.
- PARFUM.
- D-LIMONENE.

\*Ingredients from organic farming. Ingredients of natural origin.

**Anti-aging ampoules for wrinkles:** Hyaluronic acid treatment that fills wrinkles from the inside, combats loss of firmness and volume and restores optimal hydration levels to the skin.

As time goes by, hyaluronic acid degrades and the skin synthesizes it in smaller quantities, giving rise to the first signs of aging (expression lines, wrinkles...). Armonía anti-aging ampoules with double anti-wrinkle action improve skin elasticity and restore damage caused by oxidation.

The combined action of its molecules of different molecular weight keeps the skin hydrated all day and

protects from polluting factors and oxidation and reduces free radicals.

### What are Hyaluronic Acid ampoules for?

Our body naturally contains an average of 15 grams of hyaluronic acid, which is found in every part of our body: skin, joints, scalp, eyes, soft tissues and synovial fluid.

In each location of the body it has different functions correlated with its molecular weight. High molecular weight hyaluronic acid is responsible for retaining water and hydrating the surface of the skin. Low molecular weight hyaluronic acid penetrates the epidermis and, in addition to hydrating it, improves elasticity and fills wrinkles. Over time, hyaluronic acid degrades and the skin itself synthesizes it in smaller quantities, giving rise to the first signs of aging (fine lines, wrinkles). Meanwhile, the antioxidant defenses of aged cells are strongly reduced, decreasing their ability to eliminate free radicals.

In parallel, extrinsic aging occurs driven by daily exposure to a set of environmental aggressions: ultraviolet light, blue light, pollution, chemicals... All these factors result in the production of free radicals that damage and age cell components. .

### Armonía's hyaluronic acid ampoules with clinical studies:

- Wrinkles and signs of expression are visibly reduced by 87%. Immediate lifting effect from 1 to 6 hours.
  - They prevent the degradation of type I collagen by 42%.
  - 96% smoother and more vital skin.
  - A hydration efficacy study shows that it provides 24 hours of hydration, prevents water loss and improves skin elasticity.
- \*Clinical studies carried out for 28 days in 23 volunteers.

### Anti-aging treatment recommended for:

**All skin types** to provide extra hydration and keep the skin hydrated throughout the day.

**Male audience** since the formula is very light and penetrates quickly.
