Be-life is a company that was born thirty years ago, in the heart of Belgium's nature. It is dedicated to the manufacture of bio and eco responsible food supplements.

DESCRIPTION

Be-life is a pioneering laboratory in the field of biological nutritherapy and phytotherapy and has been a benchmark in high-quality, eco, family-friendly and eco-responsible food supplements made in Europe for thirty years.

It manufactures a wide catalog of **food supplements** under the name of be-life distributed throughout Europe and based on the holistic nature of the individual.

The products they make do not contain allergens or additives. the active principles are respectful with the environment, rigorously controlled and selected.

They manufacture amino acids, essential fatty acids, plant concentrates, enzymes, lactic ferments, minerals, regenerators and vitamins.

The packaging they use is ecological, recyclable and aluminum-free.
