

Nutricolor 1.0 Black Dye Black 140 ml

EAN: 8030243010209

FABRICANTE: BIOKAP

Biokap Nutricolor hair dye is a valuable ally for beauty and hair coloring.

DESCRIPTION

Its exclusive formula with plant-based ingredients and high skin tolerability nourishes and repairs hair while perfectly coloring and covering gray hair. With TRICOREPAIR, a complex with rice proteins, willow derivatives and lipophilic fruit acids. Enriched with organic argan oil, it nourishes hair and makes it softer and shinier.

When to use

To cover grey hair perfectly from the first application, and for a long-lasting colour.

How to use it

From today, using Biokap Nutricolor colours is even easier: simply insert the Nutricia bottle into the hole indicated on the back of the package and use the disposable protective cap supplied. Then mix the contents of the tube following the instructions on the leaflet. Choose the shade according to your amount of grey hair, following the instructions on the package.

Content

Contains TRICOREPAIR, a complex of rice proteins with a revitalising action, willow derivatives that protect the colour and lipophilic fruit acids that care for the scalp during the application of the colour. Due to its high content of unsaturated fatty acids and vitamin E, argan oil protects, restores and adds shine to brittle and fragile hair. Contains argan oil, vegetable protein from wheat, soya, rice and oats, Lactosafe® (lipophilic fruit acids with a soothing effect on the skin) and willow extract.

Warning

No ammonia, resorcinol, or parabens. Nickel free. Before using the product, carefully read the instructions on the package. Always perform a sensitivity test 48 hours before each application.
