DESCRIPTION

Biotona organic Raw Cocoa Powder is made from *Theobroma cacao* beans, a shrub that grows in the fertile soils of South American tropical forests. Cocoa was originally used by the Aztecs and Mayans in ritual ceremonies. It was introduced to Europe by Spanish colonisers. Biotona organic Raw Cocoa Powder is produced from 100% organic Trinitario cocoa beans from bushes growing in the Dominican Republic. The powder is obtained by a traditional cold-pressing process from fermented and sun-dried beans. The result is a 100% pure and fresh cocoa powder, unmodified, unsweetened, containing all the natural phytonutrients. A product of exceptional quality both in terms of taste and nutrition, for true specialists!
