*Menopause Balance from Bonusan is a natural supplement specially formulated to help with the symptoms of menopause, thanks to red clover and sage. These two main ingredients help with menopause symptoms, such as hot flashes.*

### DESCRIPTION

#### What is Bonusan Menopause Balance for?

Menopause Balance from Bonusan is a natural supplement specially formulated to help with the symptoms of menopause, thanks to red clover and sage. These two main ingredients help with menopause symptoms, such as hot flashes. The advantage of these herbs is their broad mechanism of action, which makes them safer than products with high concentrations of phytoestrogens.

In addition to this powerful duo of herbs, its formula also includes hops, maca and dong quai, making it complete and broad-spectrum. On the other hand, maca contributes to normal energy metabolism and normal psychological function. This formula has been carefully developed based on the latest scientific knowledge, as well as traditional herbalism.

#### Reasons to choose Bonusan Menopause Balance:

- **Natural excipients** : The only excipient that Menopause Balance by Bonusan contains is ascorbyl palmitate, a natural form of vitamin C.
- **Standardized plant extracts** : Thanks to standardization, the extract always contains a reliable dose.
- **Natural support** : Pure herbal formula without synthetic hormones.
- **Broad Spectrum Formula**: Five different plants that complement each other well.
- **In vegetable capsules** : Menopause Balance from Bonusan comes in easy-to-swallow vegetable capsules. Also suitable for vegetarians and vegans.
- **Without vitamins or minerals** : This herbal formula is designed for menopausal symptoms, such as hot flashes, and that is why it includes red clover and sage. It can be combined well, for example, with Bonusan Bone Formula.
- **Developed by health professionals** : In collaboration with the Natura Foundation scientific institute.
- **Produced in the Netherlands** : Menopause Balance by Bonusan is produced in our own factory in the Netherlands.
