

Renalof 30 Capsules

EAN: 8470000152627 FABRICANTE: CATALYSIS

Contains grass, which has been known since ancient times for its diuretic, anti-inflammatory and mineralizing properties.

DESCRIPTION

What is Renalof by Catalysis used for?

Renalof contains activated grass extract, which has active ingredients such as tritacin and agropyrene, which have diuretic and antibiotic properties and provide calcium and iron. In addition, Renalof is highly effective against kidney stones, as it may be a better alternative to achieve the dissolution of calcium oxalate stones and grit, which are deposited in the urinary tract. Calcium stones represent between 75% and 85% of all kidney stones. Renalof is indicated only for these stones.

Composition:

- Extract of couch grass (agropyron repens).
- Vit. A 800 mg.
