

Spermotrend 90 Capsules

EAN: 902329007

FABRICANTE: CATALYSIS

Selenium is considered an essential mineral, as it is found in many foods and is known to provide various health benefits. One of these benefits is its ability to contribute to normal spermatogenesis, which is the process of sperm formation in the testicles.

DESCRIPTION

What is Spermotrend from Catalysis Laboratories?

This food supplement is a combination of different nutrients that can be beneficial for general health. The African plum is a fruit native to Africa that has been traditionally used for its medicinal properties. It is rich in antioxidants and fiber, which makes it a good ally to improve digestion and prevent constipation.

On the other hand, amino acids are the building blocks of protein and are essential for the maintenance and repair of body tissues. Vitamins and minerals are also important for the proper functioning of the body, helping in a variety of processes, from energy production to strengthening the immune system.

By combining African plum, amino acids, vitamins and minerals in a food supplement, multiple health benefits can be obtained. For example, it can improve digestion, increase energy levels, strengthen the immune system, and contribute to the repair and maintenance of body tissues, in addition to contributing to normal spermatogenesis due to its selenium content.

What benefits does Spermotrend from Catalysis Laboratories have?

Selenium is an essential mineral found in many foods and is known to have several health benefits. One of the benefits of selenium is that it can contribute to normal spermatogenesis, that is, the process of sperm formation.

Spermatogenesis is a complex process that involves the production of male germ cells in the testicles and their subsequent development into mature sperm. Selenium is known to be necessary for proper sperm production and development, which in turn can improve the quality and quantity of sperm produced.

It is important to note that selenium is only one of many important nutrients for spermatogenesis and male reproductive health.

What is the composition of Spermotrend from Catalysis Laboratories?
