

## Evitral 30 Capsules

EAN: 8425402458303

FABRICANTE: CELAVISTA

*Evitral® is the first product created especially for the treatment of the ocular vitreous. This formula contains Eye-metabol® (a mixture of peptides, amino acids, metabolites and coenzymes), Iribin® (a complex of high-purity saponins and iridoid aglycones), as well as quercetin and rutin. Evitral® helps preserve the proper functioning of vision and retina.*

### DESCRIPTION

#### What is Evitral®?

It is common to find problems in the vitreous such as transparencies or floaters in people over 50 years of age, especially after menopause. Evitral is specifically designed to address these issues, with two complexes targeting these concerns.

Eye-Metabol@ acts on the vitreous, improving the quality of collagen in the eyes.

Iribin@ acts on the surface of the eye and the conjunctiva, especially in cases of dry eye.

Evitral helps delay aging of the surface of the eye, the lens and the vitreous, providing a brighter look. It also strengthens resistance and reduces allergic reactions to eye drops.

Its effectiveness is notable, with an immediate action that is perceived from the first doses and is sustained and multifactorial.

#### What is Evitral® used for?

To treat:

- Vitreous detachment.
- Vitreous hemorrhage.
- Floaters.
- Vitritis.

#### What are the ingredients of Evitral®?

Prices valid except for changes on our website. (IVA/VAT) included. Doc. Version bf-trf-G-20241122
