ES Standardized Wormwood 10:1 (Artemisia absinthium)	300mg
ES Standardized Turmeric (95% curcumin)	150mg
Oregano essential oil	30 mg

Wormwood, Bitter Artemisia (Artemisia absinthium)

Wormwood is a medicinal plant that is attributed some interesting medicinal properties, such as: digestive, febrifuge, anthelmintic, increases appetite, gastric tonic, choloretic. This medicinal plant is recommended in cases of liver failure, and in the convalescence phase of viral hepatitis. It is recommended for women who suffer from irregular and painful menstruation.

Turmeric

The main component is curcumin, one of the active ingredients responsible for its biological activity. It acts as a stomach tonic that stimulates secretions of gastric and pancreatic juice, facilitating digestion.

Its high lipophilicity allows rapid gastrointestinal absorption by passive diffusion. After administration, it is metabolized and excreted mainly through bile and feces, and also through urine. Its main metabolites are also bioactive. Its antibacterial, antifungal and antiparasitic activity is known, and its ability to inhibit HIV-1 integrase has recently been demonstrated.

Oregano essential oil
