

## Manuka honey UMF 10+ 500 g

EAN: 9400501003738 FABRICANTE: COMVITA

*Comvita Mānuka honey is raw, wild, unpasteurized and fully traceable from the hives.*

### DESCRIPTION

Premium raw manuka honey is sourced from the nectar of the manuka flower in the pristine forests of New Zealand. Comvita manuka honey is raw, wild-caught, unpasteurized, Non-GMO Project Verified, Halal, Kosher and certified gluten-free.

Every batch of Comvita Manuka Honey is independently tested and certified by the UMF Honey Association. Only UMF measures the three signature compounds (leptoperine, DHA and MGO, the key antibacterial marker) found in genuine monofloral Manuka Honey.

Many other popular Mānuka products that are not UMF certified carry proprietary terms such as “Factors,” “Bioactive,” or “Active.” These terms lack the measurable standards that ensure the quality, purity, authenticity, and value of Mānuka.

Manuka honey is one of nature's most powerful wonders. It contains a unique array of beneficial oligosaccharides and prebiotics, amino acids, polyphenols and other plant-derived compounds. Delicious and creamy to perfection, enjoy it added to your tea, oatmeal, yogurt, smoothie or simply by the spoonful. Great as a morning wellness ritual, natural pre-workout energy source or as a homemade face mask to brighten skin.
