Phone: +34856543244

Foundation year: 2017

Country: ES

Web: <https://connatur.es/>

Connatur is dedicated to the cultivation and production of moringa oleifera. Its agriculture is ecological and sustainable. Connatur develops herbal solutions from moringa, which has great nutritional power and allows us to increase our defenses and protect our body.

DESCRIPTION

Connatur was born in Cádiz, its Moringa oleifera crops are found in the pine forests of la Roche, they are ecological and sustainable crops, due to the biodiversity resources and the privileged climate they have.

Connatur has established a sustainable way that is committed to the environment, through organic farming, an artisanal process, a passive solar dehydration system that allows preserving all the properties of the moringa leaf. This is how Connatur achieves top quality products.
