

## Physio Cannabis Cremagel 60 ml

EAN: 8430022001310 FABRICANTE: DEITERS

*Physiocannabis cream-gel is a cannabinoid-based product indicated for any type of muscle or joint pain. Physiocannabis has a very pleasant texture, it is also effective for athletes as it relieves any muscle contracture, relieves pain from bumps or sprains and helps warm up the muscles before physical exercise.*

### DESCRIPTION

#### What is Physiocannabis cream-gel and what is it used for?

Fisiocannabis is a cremagel with cannabidiol and natural products, it provides cold-heat and serves to relieve any muscle and joint pain. Physiocannabis relieves localized pain and chronic pain. It is indicated in case of muscle contractures, sprains and for warming up before doing sports.

#### How is Physiocannabis cremagel applied?

Physiocannabis cremagel is applied topically, two or three times a day on the painful area, massaging lightly until completely absorbed.

Through massage, relief and well-being are achieved because it slightly increases the temperature and has a vasodilator effect.

#### What is the composition of Physiocannabis cremagel?

The composition of Physiocannabis cremagel is:

Hemp seed oil (*Cannabis sativa*), with Cannabidiol (CBD), arnica extract, hypericum extract, harpagofito extract, liquorice extract and vanilla extract.

#### Does Physiocannabis cremagel have contraindications?

Physiocannabis cremagel is contraindicated in children under three years of age.

In our online parapharmacy you will find this and other products.
