

## Immunodin 15 Vials

EAN: 8427729520411 FABRICANTE: DIRECT NUTRITION

*INMUNODINA® is a multi-complex based on dry plant extracts enriched with trace elements, vitamins and lactoferrin in synergy that help modulate the immune system and prepare the ground in cases of low and autoimmune defenses.*

### DESCRIPTION

It does not have a stimulating effect, but rather modulates and regulates the system, so it can be indicated in autoimmune diseases or processes.

With **ginger** that contributes to the **normal functioning of the immune system and promotes antioxidant activity** .

With **thyme** that promotes **antibacterial activity and helps health** .

With **rosemary** that helps the **hepatoprotective function and contributes to immune health** .

With **vitamin C** that contributes to the **normal functioning of the immune system** .

*Contains milk and/or its derivatives. (lactoferrin). (Not susceptible in cases of intolerance to lactose or dairy products)*

**Sugar-free, with steviol glycosides.**
