Dr. Wolz is a family-owned business that is now in its third generation. The company was created more than 50 years ago by biotechnologist Siegfried Wolz.

DESCRIPTION

Dr. Wolz offers a wide range of preparations for intestinal health, the immune system, cardiovascular health and especially for the health of children and athletes. Dr. Wolz produces a variety of microbiotic preparations according to the strictest quality criteria. The product range also includes highly bioactive phytopreparations.
