Web: <https://www.ducray.com/es-es>

Ducray manufactures hair care shampoos, from hair loss to sensitive scalp care. It also manufactures facial and body cosmetics for sensitive skin, atopic skin and normal skin.

DESCRIPTION

Dr. ducray's son created his own brand of shampoos, developed a range of single-dose shampoos adapted to different hair types. Ibert Ducray and Pierre Fabre, two men with a similar vision of life, came together and created the Pierre Fabre laboratories. The expansion led to the creation of the Balancing Shampoo, as the first frequently used shampoo that respects the balance of the scalp, it became a classic in hair care and that has stood the test of time. From hair loss to skin sensitive, a wide range of expert care products was then launched to include the treatment of the most common hair disorders.
