

## Digest Aciflux Protect 30 Tablets (to suck)

EAN: 8420101216285    FABRICANTE: ELADIET

*Food supplement based on Alginate, Calcium and Bicarbonate. It is used to improve the burning or burning sensation located in the upper abdominal area.*

### DESCRIPTION

#### What is Digest Aciflux and what is it for?

Digest Aciflux Protect is a product that, thanks to its calcium content, serves for the proper functioning of digestive enzymes. In addition, it helps to regulate the intestinal microbiota, which can relieve the feeling of heaviness in the stomach.

The bilayer tablets are designed with a special formula that provides a double layer of protection. First, they balance stomach pH and then create a defensive barrier to protect against gastric acid.

Made from alginate, calcium and bicarbonate, this food supplement comes in mint-flavoured chewable tablets.

#### What are the ingredients in Digest Aciflux?

For 1 tablet:

- 250mg of Alginate.
- 60mg of Calcium.
- 110mg of Bicarbonate.

#### What is the dosage of Digest Aciflux?

Chew or dissolve 1 or 2 tablets in the mouth after each meal. Up to 4 tablets a day.
