

Holoram Cardivas 180 Capsules

EAN: 8436003022664 FABRICANTE: EQUISALUD

It is a food supplement produced by Equisalud, which stimulates the natural biological regulation processes that maintain the health of the heart and vascular system.

DESCRIPTION

HoloRam Cardivas stimulates the normal physiology of the cardiovascular network by promoting physiological processes of diuresis, regulation of neurovascular tone and prevention of energy imbalance of metabolic regulation systems that maintain the health of the vascular endothelium and prevent atherosclerosis.

HoloRam® Cardivas stimulates the natural biological regulation processes that maintain the **health of the heart and vascular system.**

This bioregulation of the normal physiology of the cardiovascular system is achieved by the synergistic combination of critical doses of micronutrients such as phytotherapeutics, amino acids, enzymes, vitamins and activated minerals.

With the synergistic combination of these micronutrients, carefully selected and dosed for their regulating effect on the cardiovascular system, a synergy has been achieved that activates the natural regulatory processes linked to this system. This translates into an energetic stimulus of the following bioregulation processes:

- The main micronutrients contained in HoloRam® Cardivas are: plant sterols, epigallocatechin gallate, niacin and curcumin, which provide regulatory information on the three most important factors in vascular system disorders: inflammation of the vascular endothelium, oxidative stress and autoimmune dysfunction.
- HoloRam® Cardivas also stimulates the normal physiology of the cardiovascular network by promoting physiological processes of diuresis, regulation of neurovascular tone and prevention of energy imbalance in metabolic regulation systems that maintain the health of the vascular endothelium and prevent atherosclerosis.
- It provides information on amino acids and enzymes necessary for the dilation of capillaries that maintain cellular oxygenation and nutrition.
- It stimulates the homeostasis of the autonomic nervous system, thus promoting the physiological regulation of blood pressure.
- It promotes a gentle relaxing effect that attenuates the effects of stress on the cardiovascular network.

Holoram Cardivas 180 Capsules

EAN: 8436003022664 **FABRICANTE:** EQUISALUD

- It activates the protective processes of coronary circulation, thus improving the supply of oxygen and nutrients to the heart muscle.
- It activates energy production at the mitochondrial level, essential for optimal myocardial function.

Instructions for use

Take 2 capsules a day, one capsule in the morning and one at noon, or as directed by a specialist. Do not take more than 2 capsules a day.

Composition

Per capsule:

For better understanding we group the components into five groups:

-Group I. Phytonutrients of the cardiovascular system: olive dry extract (*Olea europaea*, leaves, 20% oleuropein), 112 mg; turmeric dry extract (*Curcuma longa* L., root, 95% curcumin), 38 mg; hawthorn powder (*Crataegus monogyna* Jacq., leaves and flowers), 38 mg; ginkgo dry extract (*Ginkgo biloba* L., leaves, 24% ginkgoflavones), 38 mg; triphala dry extract (*Emblica officinalis* L., *Terminalia chebula* Retz. and *Terminalia bellirica* (Gaertn.)Roxb., fruits, 30% tannins), 30 mg; goldenrod powder (*Solidago virgaurea* L., flowery aerial parts), 30 mg; rosehip dry extract (*Rosa canina* L., fruit, 0.2% L-ascorbic acid), 22 mg; ashwagandha dry extract (*Withania somnifera* (L.) Dunal, root, 1.5% withanolides), 15 mg; green tea dry extract (*Camellia sinensis* (L.) Kuntze, leaves, 20% polyphenols), 15 mg; California poppy dry extract (*Eschscholzia californica* Cham., aerial parts, 2% total flavonoids expressed as rutin), 15 mg; pilosilla dry extract (*Hieracium pilosella* L., flowers, 0.3% umbelliferone), 11 mg.

-Group II. Amino acids: taurine, 22 mg; magnesium malate, 20 mg; L-arginine base, 19 mg; L-citrulline-DL-malate, 19 mg.

-Group III. Antioxidants: coenzyme Q10 or ubiquinone, 11 mg; quercetin (*Sophora japonica*, flower, >95%), 4 mg.

-Group IV. Vitamins: vitamin E (tocopherol acetate, 50% vitamin E, 500-600 IU/g), 4.8 mg; vitamin B3 (nicotinamide), 3.2 mg; vitamin B6 (pyridoxal 5'-phosphate), 0.3 mg.

-Group V. Minerals: zinc gluconate (14.35% zinc), 10 mg; potassium gluconate (16.69% potassium), 5 mg; manganese gluconate (11.41% manganese), 1 mg.

Shell: polysaccharide of plant origin (pullulan).

*Does not contain gluten, starch, GMOs or colorants.

**Suitable for vegetarians, diabetics and patients with restrictive diets.
