

A-Topic Body Gel Shampoo 400 ml

EAN: 8413568009767 **FABRICANTE:** ESENTIAL AROMS

Gentle and soothing body gel and shampoo. It does not contain sulfates, without allergens, with a natural certificate and with organic ingredients. Cleans, hydrates, calms and respects the hydrolipidic layer of the skin, thus preventing skin dryness.

DESCRIPTION

It is essential to maintain adequate skin hygiene to prevent superinfection of lesions that usually appear due to scratching when itching occurs. However, regular use of soaps, shampoos and gels with sulfates and detergents can worsen atopic-prone skin conditions.

Sulfates and detergents remove the hydrolipidic layer of the skin, which can cause further dehydration and accentuate skin dryness. For this reason, ESENTIAL'arômes® has created A-TOPIC GEL®, a soft and soothing body gel and shampoo that is free of sulfates and allergens and is certified natural with organic ingredients. Its gentle and respectful formula for atopic skin will help you maintain the necessary hygiene without aggravating the skin problem.

What are the properties or indications of A-topic Body gel and shampoo?

We present a product with unique properties and various indications. This product respects the hydrolipidic layer of the skin, which helps prevent skin dryness and maintain healthy skin. In addition, this product offers multiple benefits, including its ability to cleanse, hydrate, and soothe the skin.

Thanks to its cleansing properties, this product will allow you to maintain proper hygiene and remove impurities from the skin, without compromising its natural hydration. Its ability to hydrate the skin will help keep it soft and smooth, while its soothing properties will help relieve any type of skin irritation or discomfort.

In short, this product is an excellent option for those looking for a skin-friendly product that can cleanse, moisturize, and soothe without causing dry skin.

For whom is A- Topic shampoo body gel recommended?

This product is ideal for the care of atopic-prone skin, both in children and adults. Its gentle and respectful formula for atopic skin makes it an excellent option for those looking for an effective product to keep their skin healthy and balanced.

A-Topic Body Gel Shampoo 400 ml

EAN: 8413568009767 FABRICANTE: ESENCIAL AROMS

Atopic skin care is essential to prevent the appearance of lesions and superinfections, especially at times of outbreaks or exacerbation of symptoms. Therefore, having a product specifically designed to care for this type of skin is essential.

This product has been formulated with carefully selected ingredients, with the aim of providing a gentle and effective cleanse, without damaging the skin. In addition, its ability to hydrate and soothe the skin makes it a perfect ally for the daily care of atopic skin.

In short, this product is an excellent option for those looking for a specific product for the care of atopic skin in children and adults.

What is the composition of a-topic shampoo body gel?

This product has been formulated with high-quality natural ingredients, including cornflower floral water, extracts of blue chamomile, orange blossom and comfrey. All these ingredients have been carefully selected to provide a gentle and effective action on the skin, especially for those who suffer from atopic dermatitis.

Cornflower Floral Water is rich in skin-soothing mucilages, making it an ideal ingredient to provide gentle, skin-friendly cleansing. Blue chamomile and orange blossom extracts have soothing and emollient properties, helping to soothe flaky and irritated skin.

But without a doubt, one of the star ingredients of this product is comfrey, which naturally contains vegetable allantoin. Vegetable allantoin has been scientifically shown to be effective in reducing the itching associated with atopic dermatitis when applied topically. In addition, comfrey also has soothing and emollient properties, making it an ideal ingredient for atopic skin care.

In short, this product is an excellent option for those looking for a natural and effective care product for atopic-prone skin, thanks to its gentle, skin-friendly formula enriched with high-quality natural ingredients.

How should a-topic body wash and shampoo be used?

Apply to wet hair and body, massage gently and rinse with plenty of water.
