

Hydro Protect Ultra-Light Fluid SPF 50+ facial sunscreen 50 ml.

EAN: 4005800321054 FABRICANTE: Eucerin

An ultra-light liquid facial sunscreen for all skin types, even sensitive skin: The innovative Eucerin® Sun protection range with Advanced Spectral Technology combines UVA/UVB filters for very high protection against UV rays and licochalcone A for the neutralization of free radicals induced by UV rays and high-energy visible light

DESCRIPTION

Glycyrrhetic acid stimulates the skin's DNA repair mechanism.

- Sustainability and environment.
- UV filter system without octocrylene.
- FSC certified paper folding box.

Ultra-light liquid facial sunscreen for all skin types, even sensitive skin.

UV light is the leading cause of skin damage from the sun, but high-energy visible light (HEVL) can also trigger free radicals that further damage the skin.

Eucerin Sun Face Hydro Protect Ultra-Light Fluid SPF 50+ is a daily sunscreen with hydrotechnological complex for immediate hydration and a feeling of freshness on the skin that protects against sun damage. Advanced Spectral Technology combines photostable and broad-spectrum filters against UVA and UVB1 rays. It offers very high protection against UV rays with licochalcone A to neutralize free radicals produced by UV and HEVL light. Solar fluid also contains glycyrrhetic acid, which stimulates the skin's DNA repair mechanism.

Scented ? and with an ultra-light, non-greasy and fast-absorbing formula that leaves no residue after use ?, Eucerin Sun Face Hydro Protect Ultra-Light Fluid SPF 50+ has clinically and dermatologically demonstrated excellent tolerance on all skin types, including sensitive skin.

1 We meet the demanding criteria for protection against UVA and UVB rays defined by Cosmetics Europe.

Clinical and dermatological studies:

Clinical and dermatological studies demonstrate very good tolerability in all skin types, including sensitive

skin.

Main results:

- 99% Easy application.
- 98% Suitable for hot and humid climates.
- 97% Pleasant feeling on the skin after use.
- 97% Suitable for my skin type.
- 96% Does not leave a sticky film on the skin.

Clinically proven results. 1 Among other clinical and dermatological studies, a study of the product in use was carried out in 160 people between 18 and 402 years old, all of them regular users of facial sun protection products with a high factor. They claimed to notice the following results after two weeks of continuous use. (1 Clinical study, self-rating, 160 subjects, 2 weeks of daily use. 2 Beiersdorf AG, product-in-use study, May 2022.).

How to use:

Attention: Sun protection is not just for those sunbathing on the beach. Daily light or moderate exposure also affects the skin. Therefore, it is important that you include sun protection products in your daily skin care routine. Learn more in The importance of sun protection in your daily routine.

Three steps to achieve optimal sun protection:

1. Select the appropriate product. Choose a product that offers the right level of protection for your skin. It should protect you against UVA and UVB rays and defend the skin against HEVL light. It should also suit your skin type and skin problems.
2. Use the appropriate amount: It is important to use a sufficient amount of product and reapply it periodically. To measure it, you can use the palm of your hand. We recommend that, to cover your face, neck and décolleté, you use a thin line of solar fluid that goes from the tip of your middle finger to your wrist.
3. Apply the product thoroughly: It is easy to leave some areas unprotected. Don't forget to apply it to the bridge of your nose and neck.

Hydro Protect Ultra-Light Fluid SPF 50+ facial sunscreen 50 ml.

Important instructions for use:

- Apply a generous amount before sun exposure and reapply at regular intervals, especially after swimming, sweating or towel drying, to maintain original protection.
- If less quantity is used, the protection level will be significantly reduced.
- Try not to expose yourself to the sun for too long, even if you are using a sun protection product.
- Excessive sun exposure is harmful to health.
- Keep babies and small children out of direct sunlight.
- Let the product absorb completely and avoid direct contact with textiles and hard surfaces to avoid stains.
- Avoid contact with eyes.
- Shake well before use.

What you should and what you should not do:

Use this product if?

- You are looking for a very high protection facial sunscreen suitable for all skin types: Eucerin Sun Face Hydro Protect Ultra-Light Fluid SPF 50+ offers very high protection and has been specially formulated for all skin types.
- You are looking for a sun protection product with an ultra-light texture: Eucerin Sun Face Hydro Protect Ultra-Light Fluid SPF 50+ is ultra-light, non-greasy and non-sticky, and absorbs immediately and easily. It is also non-comedogenic.
- You are looking for a sun protection product that protects your body from UVA and UVB rays, as well as the negative effects of HEVL light: The innovative Eucerin® Sun protection range with Advanced Spectral Technology combines UVA/UVB filters for very high protection against UV rays and licochalcón A for the neutralization of free radicals produced by UV and HEVL light.

Hydro Protect Ultra-Light Fluid SPF 50+ facial sunscreen 50 ml.

EAN: 4005800321054 FABRICANTE: Eucerin

Ingredients:

- How it works: UV rays are not the only ones that can cause damage to the skin. High energy visible light (HEVL) can also generate free radicals, cause photoaging (premature skin aging caused by the sun), and aggravate hyperpigmentation problems. Eucerin Sun Face Hydro Protect Ultra-Light Fluid SPF 50+ includes Advanced Spectral Technology, which goes beyond UV rays and also protects the skin from the negative effects of HEVL light. Additionally, the formula stimulates the skin's DNA repair mechanism.
- Advanced Spectral Technology: The combination of photostable broad-spectrum filters against UVA/UVB1 rays with licochalcone A neutralizes free radicals produced by UVA and HEVL light.
- DNA Protection: Sunscreen for oily skin also contains glycyrrhetic acid, which stimulates the skin's DNA repair mechanism.

1 We meet the most demanding criteria for protection against UVA and UVB rays defined by Cosmetics Europe. The levels of protection against UVA rays are higher than what is established by European regulations.

All the ingredients:

Aqua, Alcohol Denat., C12-15 Alkyl Benzoate, Butyl Methoxydibenzoylmethane, Bis-Ethylhexyloxyphenol Methoxyphenyl Triazine, Ethylhexyl Triazone, Butylene Glycol Dicaprylate/Dicaprate, Dibutyl Adipate, Diethylamino Hydroxybenzoyl Hexyl Benzoate, Phenylbenzimidazole Sulfonic Acid, Silica, Tapioca Starch, Poly glyceryl-6 Stearate, Silica Dimethyl Silylate, Glycerin, Glycyrrhiza Inflata Root Extract, Sodium Hyaluronate, Arginine HCL, Sodium PCA, Sodium Lactate, Glycyrrhetic Acid, Cetearyl Alcohol, Glyceryl Stearate, Copernicia Cerifera Cera, Polyglyceryl-6 Behenate, Xanthan Gum, Hydroxypropyl Methylcellulose, Sodium Hydroxide, Trisodium EDTA, Hydroxyacetophenone, Phenoxyethanol, Parfum.
