

Sunscreen Gel Cream Oil Control Dry Touch SPF 50+ 50 ml

EAN: 4005800120237 FABRICANTE: Eucerin

An advanced facial sunscreen for oily and acne-prone skin that offers an anti-shine effect for 12 hours.

DESCRIPTION

Eucerin's Advanced Spectral Technology offers very high factor protection against UVA and UVB rays, and protection against HEVL light. The sunscreen also stimulates the skin's DNA repair mechanism and includes Oil Control technology that regulates sebum production.

- High facial sun protection.
- Advanced Spectral Technology: protection against UVA and UVB rays, and protection against HEVL light
- For oily and acne-prone skin.

Clinical and dermatological studies

Clinical and dermatological studies have shown good tolerability on sensitive and acne-prone skin. The formula was also tested in humid climates, where it was proven effective.

Main results:

- 98% Immediate absorption.
- 95% Ultralight texture.
- 94% Durable dry matte finish.
- 93% No shine a few hours after application.
- 90% The skin was less oily.
- 86% The product did not clog pores.
- 81% The product regulated sebum production.

Two clinical studies of the use of the product (2) carried out with 325 women with combination, oily and acne-prone skin showed excellent results. The following claims were made for the cream. ((2) Eucerin clinical studies. Eucerin Sun Gel-Cream Oil Control Dry Touch SPF 50+ was applied approximately once a day for two weeks. The studies were carried out in hot and humid climates (Thailand and Spain). (3) Eucerin clinical studies. Results of a clinical study carried out with 40 women with combination to oily skin.

Sunscreen Gel Cream Oil Control Dry Touch SPF 50+ 50 ml

EAN: 4005800120237 FABRICANTE: Eucerin

Eucerin Sun Gel-Cream Oil Control Dry Touch SPF 50+ was applied twice a day for four weeks).

How to use:

- Sunscreen as part of your daily routine.
- Apply it in the morning, after (or instead of) your usual daily care product.
- It is especially important to use a high factor sunscreen if you are taking acne medication or have used a peeling product, as both treatments can increase your skin's sensitivity to the sun.
- It can be used in combination with other Eucerin Facial Care products, such as those from the Eucerin DERMOPURE range.
- Your skin will be protected from the sun instantly, you don't have to wait.
- You can apply makeup later, if you feel like it.

Attention. Sun protection isn't just for beach sunbathers. Mild to moderate daily exposure also affects the skin. Skin prone to spots is particularly susceptible to hyperpigmentation problems, which the sun aggravates. This is why it is important to include sun protection products in your daily skin care routine. Learn more in [The Importance of Sun Protection in Your Daily Routine](#).

Three steps to optimal sun protection:

1. Select the right product. Choose a product that offers the right level of protection for your skin. It should protect you against UVA and UVB rays, and defend the skin against HEVL light. It should also suit your skin type and skin problems.
2. Use the proper amount. It is important to use a sufficient amount of product and reapply it at regular intervals. To measure it, you can use the palm of your hand. We recommend that, to cover the entire face and neck, you use a thin line of the cream gel the length of your middle finger.
3. Apply the product thoroughly. It is easy to leave some areas unprotected. Don't forget to apply it to the bridge of your nose and neck.

Important instructions for use:

- Apply a generous amount before going out in the sun and reapply at regular intervals, especially after swimming, sweating or towel drying, to maintain original protection.

Sunscreen Gel Cream Oil Control Dry Touch SPF 50+ 50 ml

EAN: 4005800120237 FABRICANTE: Eucerin

- If less quantity is used, the protection level will be significantly reduced.
- Try not to stay in the sun for too long, even if you are using a sunscreen product.
- Overexposure to the sun is harmful to health.
- Keep babies and small children out of direct sunlight.
- Avoid contact with the eyes.
- Allow the product to be completely absorbed and avoid direct contact with textiles and hard surfaces to avoid stains.

Use this product if?

- You have oily, acne-prone skin and are looking for a high-protection facial sunscreen: Eucerin Sun Gel-Cream Oil Control Dry Touch SPF 50+ offers very high protection and is specially formulated for your skin type.
- Look for a sun protection product with an ultra-light texture: Eucerin Sun Gel-Cream Oil Control Dry Touch SPF 50+ is ultra-light, non-greasy or sticky, and absorbs quickly and easily. It is also non-comedogenic.
- Look for a sunscreen that prevents the appearance of shine due to excess sebum: Eucerin Sun Gel-Cream Oil Control Dry Touch SPF 50+ has an anti-shine effect for 12 hours. The Oil Control technology that regulates sebum production in the formula provides a long-lasting dry matte finish thanks to its dry-to-the-touch texture and its formula that regulates sebum production.
- Want to help prevent acne marks caused by the sun: Eucerin Sun Gel-Cream Oil Control Dry Touch SPF 50+ protects your skin from pigmentation caused by the sun.

Try another product if...

- You have oily, acne-prone skin and are looking for a sunscreen with an SPF lower than 50+: try Eucerin Sun Gel-Cream Oil Control Dry Touch SPF 30.
- You have sensitive and oily skin, but not particularly prone to the appearance of blemishes, and are looking for a product with very high facial protection: try Eucerin Sun Fluid Sensitive Protect SPF 50+.
- You have sensitive, dry skin and are looking for a very high facial protection product: try Eucerin Sun Cream Sensitive Protect SPF 50+.
