

Sunscreen Gel-cream Oil Control Dry Touch Spf50 200 ml

EAN: 4005800264214 **FABRICANTE:** Eucerin

Oil Control Dry Touch sunscreen. Ultra-light sunscreen with a gel-cream texture that absorbs quickly without leaving residue and leaves an immediate dry touch finish. It offers complete effective protection for all skin types.

DESCRIPTION

Eucerin's Advanced Spectral Technology system offers high protection against UVA and UVB rays, and protection against blue visible light or HEVL. The sunscreen also stimulates the skin's DNA repair mechanism and its Oil Control technology, with mattifying particles, leaves an immediate dry finish.

- Very high body sun protection.
- Advanced Spectral Technology: protection against UVA and UVB rays and against blue light or HEVL.
- For all skin types, including sensitive, oily and acne-prone skin

Sustainability and environment:

- No microplastics (as defined by UNEP)

Dry touch gel-cream: a non-sticky and non-greasy body sunscreen.

UV radiation is the main cause of skin damage from the sun, but high energy visible light (HEVL) can also trigger free radicals that further damage the skin.

Eucerin Sun Gel-Cream Dry Touch Sensitive Protect SPF 50+ is an ultra-light and non-greasy body sunscreen. It has been clinically and dermatologically proven to be suitable for all skin types, including sensitive, oily and acne-prone skin.

The gel-cream sunscreen offers very high protection against UV rays: the filters against UVA and UVB rays meet the high standards defined by Cosmetics Europe and the levels of protection against UVA rays exceed the minimum EU recommendations. Eucerin's Advanced Spectral Technology system combines these highly photostable, broad-spectrum filters against UVA and UVB rays, with licochalcone A that is capable of neutralizing free radicals produced by UV and HEVL light. The formula also contains

EAN: 4005800264214 **FABRICANTE:** Eucerin

glycyrrhethinic acid, which stimulates the skin's DNA repair mechanism, and Oil Control technology, with mattifying particles, which leaves an immediate dry finish.

Eucerin Sun Gel-Cream Dry Touch Sensitive Protect SPF 50+ absorbs quickly and leaves no residue on the skin. It's extra water-resistant, sweat-resistant, and ?sand-proof? (sand is less likely to stick to your skin). In addition, like all sun protection products in the Eucerin range, it does not contain octinoxate or oxybenzone ? UV filters that damage coral reefs ? and complies with Hawaii's reef protection law.

Clinical and dermatological studies:

- Clinical and dermatological studies demonstrate very good tolerability in sensitive skin, including oily and acne-prone skin. Product effectiveness studies were carried out in areas with humid climates.

Main results

- 96% Absorption in seconds.
- 95% Immediate dry touch.
- 92% Ultra light texture.
- 92% Non-sticky Non-greasy.

Study with 120 women (18-55). Results after 2 weeks. (2) Beiersdorf AG, PiU, Spain, April-May 2019.

Mode of use. Important instructions for use:

- Apply a generous amount before sun exposure and reapply at regular intervals, especially after swimming, sweating or towel drying, to maintain original protection.
- If less quantity is used, the protection level will be significantly reduced.
- Try not to expose yourself to the sun for too long, even if you are using a sun protection product.
- Excessive sun exposure is harmful to health.
- Keep babies and small children out of direct sunlight.
- Let the product absorb completely and avoid direct contact with textiles and hard surfaces to avoid

stains.

Three steps to achieve optimal sun protection:

- Select the appropriate product. Choose a product that offers the right level of protection for your skin. It should protect you against UVA and UVB rays, and defend the skin against HEVL light. It should also be suitable for your skin type and any skin problems you may suffer from.
- Use the appropriate amount. It is important to use a sufficient amount of product and reapply it at regular intervals.

To measure it, you can use the palm of your hand. We recommend using a thick line of sunscreen (from the tip of your middle finger to your wrist) for each area:

1. Face and neck.
2. Both arms.
3. Chest.
4. Abdomen.
5. Upper part of the legs (front and back).
6. Lower part of the legs (front and back) plus the feet.
7. Shoulders and upper back.
8. Lower back.

You will need a golf ball sized amount to cover your entire body. To protect the sensitive skin of the face and neck (zone 1), we recommend that you use one of our facial sun protection products.

- Apply the product thoroughly. Make sure all exposed areas receive the protection they need. It is easy to leave some areas unprotected. Don't forget the ears, the back of the neck, the back and shoulders, the backs of the arms, the hands and feet, and the areas around the edges of the swimsuit.

A study by Eucerin3 indicates that, on average, approximately 14% of the back of the body for women and 22% for men is regularly exposed to the sun's rays without any type of protection.

*Beiersdorf internal study from 2016 on sun protection use with 52 participants (29 women and 23 men)

What you should and what you should not do:

Use this product if?

- You are looking for a sunscreen with a very high factor for sensitive, oily and acne-prone body skin: Eucerin Sun Gel-Cream Dry Touch Sensitive Protect SPF 50+ is an ultra-light product that is absorbed quickly, leaving an immediate dry finish on the skin. It has been clinically and dermatologically proven to be suitable for all skin types, including sensitive, oily and acne-prone skin.
- Are you looking for a sun protection product that protects your body from UVA and UVB rays, as well as the negative effects of HEVL light: Eucerin's Advanced Spectral Technology system offers excellent protection against UVA and UVB rays, as well as protection against HEVL light.
- You are looking for a sunscreen that does not leave a white residue on the skin: Eucerin Sun Gel-Cream Dry Touch Sensitive Protect SPF 50+ has an ultra-light texture that is absorbed quickly and without leaving residue.

Try another product if?

- You are looking for a high factor sunscreen that is dry to the touch for oily and acne-prone skin, but you prefer the aerosol format: Eucerin Sun Spray Transparent Dry Touch Sensitive Protect FPS 50 is an aerosol with a multi-position nozzle that allows continuous application so that it is easier to reach the most complicated areas.
- You're looking for a high-factor sunscreen for oily, acne-prone body skin, but you prefer a spray format that is not an aerosol: Try Eucerin Sun Spray Transparent Sensitive Protect SPF 50, which is available in a spray format with a pump.
- You are looking for a sun protection product with a high or very high factor for oily, acne-prone facial skin: Try Eucerin Sun Gel-Cream Oil Control SPF 50+ or SPF 30.

Ingredients:

Licochalcón A

Licochalcón A is a powerful anti-inflammatory and antioxidant that is obtained from the roots of the Chinese licorice plant. This plant uses the oxidative efficiency of Licochalcón A to protect cells against UV radiation. It builds an antioxidant reservoir in the deepest layer of the epidermis and offers proven protection against sun-induced cellular damage caused by free radicals. When applied to irritated skin, Licochalcone A quickly reduces redness and helps calm inflammation.

All the ingredients:

Aqua, Alcohol Denat., Butyl Methoxydibenzoylmethane, C12-15 Alkyl Benzoate, Bis-Ethylhexyloxyphenol Methoxyphenyl Triazine, Distarch Phosphate, Dibutyl Adipate, Ethylhexyl Triazone, Dicaprylyl Carbonate, Phenylbenzimidazole Sulfonic Acid, Diethylamino Hydroxybenzoyl Hexyl Benzoate, Behenyl Alcohol, Ceteary I Alcohol, Glyceryl Stearate , Glycerin, Glycyrrhiza Inflata Root Extract, Glycyrrhetic Acid, Tocopherol, Copernicia Cerifera Cera, Hydrogenated Rapeseed Oil, Cetyl Palmitate, , Parfum
The ingredients in our brand products are updated regularly. For this reason, occasionally there may be discrepancies between the ingredients on our website and on our product packaging. We therefore recommend that you always pay attention to the information on our product packaging and check the ingredients listed there.
