### DESCRIPTION

**Femilady** 's feminine intimate hygiene products, including **Day Pads, Night Pads and Panty Liners** , provide optimal effectiveness. They result from the hard work of research and development, with the purpose of ensuring the greatest comfort and protection. They are equipped with cutting-edge technology in pads and panty liners, being highly practical, hypoallergenic and offering numerous benefits. Femilady represents a guarantee of health and comfort.

Femilady's next-generation pads and panty liners are the result of the application of the most advanced technology, the product of rigorous research and numerous tests.

This approach ensures that Femilady feminine intimate hygiene products are optimal for our clients, exceeding all their expectations. Our top priority is to ensure your full satisfaction.

Health in intimate hygiene is guaranteed with Femilady products, since they are specifically designed for this. In addition to being hypoallergenic, they prevent the appearance of bacteria, fungi and other irritations thanks to their latest technology.

With Femilady pads and panty liners, you will always feel comfortable and dry, enjoying maximum comfort. Its design and excellent absorption capacity prevent the accumulation of liquids in a single point and prevent lateral leaks, in addition to effectively controlling odors. You won't even notice you're wearing them.

Femilady pads, with their 8 layers of protection, provide the cleanliness, comfort and quality you require.

The Femilady line uses effective Nanotechnology to prevent bacteria, germs, fungi, itching and irritations.

Additionally, it provides maximum odor control and prevents lateral leaks.

Intimate hygiene with Femilady benefits from the latest technology available in the sector. Both pads and

## FEMILADY

panty liners incorporate technological innovations to guarantee maximum effectiveness.

In its manufacturing, innovative elements resulting from exhaustive research are used. This approach allows us to create products of maximum effectiveness, offering unparalleled levels of comfort and effectiveness.

Nano Plata, a new generation germicide, has been developed and produced using cutting-edge methods. This revolutionary product is capable of eliminating more than 650 microbes and helps neutralize odors, while balancing the body's pH.

In addition, it incorporates magnetic elements, with biomagnetic matter contained in the Green chip, which promote cellular metabolism and accelerate detoxification. These elements also improve the oxygen-carrying capacity of red blood cells, providing additional health benefits.

The negative ions present in Nano Silver act as natural protectors against environmental and biological contaminants. They improve immunity and antibacterial capacity, reduce irritation and relieve tension. In addition, they increase the level of oxygen in the body and eliminate unpleasant odors.

Lastly, far infrared rays bring additional benefits to the body by increasing oxygen content and balancing pH. They also strengthen the cells in the genital area and improve general immunity.

The benefits of Femilady are diverse and stand out for its focus on comprehensive protection and comfort:

1. Pads with 8 layers of protection: They offer complete and reliable protection throughout the day.
2. Maximum absorption, breathable and always dry: They guarantee optimal absorption, allowing the skin to breathe and remain dry at all times.
3. No side leaks: Its design ensures a perfect fit and prevents any type of leaks.
4. Maximum odor control: Neutralizes unpleasant odors to maintain freshness and comfort.
5. Contains nano silver, negative ions, far infrared and magnetic: These elements offer additional benefits, such as the prevention of bacteria, allergies, itching and irritations.
6. Protects against all types of losses: Provides complete protection against any type of loss, offering peace of mind and security at all times.
