

Kudzu (Pueraria montana) 200 Capsules 250 mg

EAN: 3700790001986 **FABRICANTE:** FENIOUX

Food supplement that helps improve the functioning of the cardiovascular system.

DESCRIPTION

Kudzu is a plant native to Southeast Asia. Its long stems can grow more than 300 meters per year.

This species of Pueraria montana must be distinguished from tropical Kudzu, a forage plant.

This one has fruits, pods containing black seeds the size of a bean.

Laboratoires FENIOUX capsules are also packaged with these roots crushed and micronized in powder form.

Instructions for use

3 to 4 capsules a day divided into 2 doses with a large glass of water, 10 minutes before meals.

Nutritional information

4 gelules per day you report:

Kudzu root powder: 1.00 g

Contraindications

Not recommended for women with a personal or family history of breast cancer.
