

Anifen 25 g

EAN: 8023966200033 FABRICANTE: FORZA VITALE

Food supplement based on Anise and Fennel, helps control intestinal gas.

DESCRIPTION

Fennel seeds, correctly defined as achenes, have a composition particularly rich in essential oils, whose most important active principles are limonene, flavonoids, dipentene, anise ketone and others. Blackberry and in particular its leaves have important beneficial properties, among which the ability to protect the cardio-circulatory system stands out.

Cranberry is an excellent remedy against diarrhea, but also against constipation and, among laxative supplements, it corrects intestinal atony that may result from the use of such preparations. Lactobacillus acidophilus is a Gram-positive bacteria that has numerous beneficial effects on the human body. It contains ten billion live bacteria per gram, with excellent protective effects on the intestinal bacterial flora, where some infectious processes of allergenic origin accumulate.

Chamomile is a plant commonly used in herbal medicine for its high antispasmodic qualities. It is also used as an adjuvant to sedate some painful symptoms such as intestinal colic.

Anise seeds have been used for centuries as a digestive remedy; they have the power to inhibit fermentation processes that originate in the intestine and significantly reduce the appearance of vomiting, nausea and meteorism. Combined with fennel, they are able to tangibly enhance its action; finally, their antispastic action justifies their use in cases of dyspepsia and meteorism.

Valerian is a medicinal plant with well-known calming and sedative properties. Valerian also acts as an antispasmodic in cases of gastric pain or intestinal colic.

Charcoal is derived from the calcination of birch wood, poplar wood and other tree species whose wood is considered light; and acts by absorbing excess gases produced by the intestine, making it useful when used as an antidiarrheal.

Mullein and Fucus, rich in mucilages that act in different ways, are both aimed at detoxifying the body with particular reference to the intestinal tract. Fucus has the ability to precipitate toxic substances and heavy metals present in the intestine, while mullein concentrates its anti-inflammatory and emollient action on the colon.

Ingredients:

Extracts and Powders of: Fennel (*Foeniculum vulgare* Mill.) fruits, Blueberry (*Vaccinium myrtillus* L.) leaves, microcrystalline cellulose, vegetable magnesium stearate, Lactobacillus acidophilus W22 (NIZO 3674)*, Fucus (*Fucus vesiculosus* L.) stem, Mullein (*Verbascum thapsus* L.) flowers, Chamomile (*Matricaria chamomilla* L.) flowers, Green anise (*Pimpinella anisum* L.) fruits 5%, Valerian (*Valeriana officinalis* L.)
