### DESCRIPTION

Fig is a regulator of the cortico-hypothalamic axis, therefore useful in psychosomatic manifestations with spasmophilias, especially at the gastrointestinal level. Useful in heartburn, gastritis, duodenal ulcers, dysphagia.

Blackcurrant is an adrenal stimulant and systemic anti-inflammatory. It protects the mucous membranes and stimulates the immune system. It is useful in gastritis, colitis, dysphagia, hepatitis, and pancreatitis.

Hawthorn contains terpenes that contribute to increasing the bioavailability of other active ingredients. Gold-Vitale® - Forza Vitale uses in its own specific compounds mixtures obtained by a Spagyric-Alchemic elaboration, from plants characterized by a macrocosmic energetic signature, naturally containing traces of colloidal trace elements, so as to amplify the effect of the product on the specific organ or system concerned.

These naturally obtained food additives act as a support to transport the biochemical principles of the extract and guarantee the energetic stability of the spagyric product.
