

LES Vaccinium myrtillus 50 ml

EAN: 8023966800431

FABRICANTE: FORZA VITALE

Food supplement made from black cranberry yolk derivatives.

DESCRIPTION

Vaccinium myrtillus sprouts have an organotropism directed at the intestine, the urinary system, the vascular system, the retinal tissue, and the carbohydrate and purine metabolism.

They have a hypoglycemic and pancreatic drainage action. They reduce platelet aggregability by stimulating the activity of PG-12-like; therefore, they have antithrombophilic activity.

Ingredients: Water, glycerol, alcohol, Blackberry (Vaccinium myrtillus L.) young shoots 10%, honey.
