

## LES Zea mays 50 ml

EAN: 8023966800400

FABRICANTE: FORZA VITALE

*Food supplement made from corn derivatives.*

### DESCRIPTION

The young roots of Zea mays have a selective organotropism for the myocardium and coronary arteries, where they exert a clearly anti-inflammatory action. They also accelerate the healing of the myocardium in the post-infarction phase and normalize the rate of glutamic-oxaloacetic transaminases, promoting the repair mechanisms of myocardial tissue.

**Ingredients:** Water, glycerol, alcohol, Corn (Zea mays L.) young roots 10%, honey.
