

PSC Ginkgo biloba 15 ml

EAN: 8023966990330

FABRICANTE: FORZA VITALE

Food supplement made from concentrated Ginkgo biloba worms.

DESCRIPTION

Ginkgo Biloba, in the form of a concentrated extract of plant stem cells, is exclusive to the new PSC® line of extracts. Ginkgo is considered the oldest tree on the planet, a characteristic from which it derives its name of "living fossil".

It is of considerable interest in phytotherapy, being one of the most studied and used species. Its main uses concern peripheral and cerebral vasculopathies and neurovegetative disorders.

Ginkgo Biloba in its concentrated extract form PSC® is recommended as nutritional support in the neurological field due to its excellent anti-aging action on the brain and its functionality.

The use of Ginkgo biloba is recommended in the following clinical cases: cognitive functions, memory, dementia and Alzheimer's disease, dyslexia and mild depressive symptoms.

In the cardiovascular field, Ginkgo improves the general circulation of blood in the body. Its action of thinning the blood and consequently, of decreasing platelet aggregation,

Its use is suggested in atherosclerosis, Reynaud's syndrome, and in reducing the risk of myocardial infarction and stroke. This last characteristic also allows its application in the haematological field due to the reduction of capillary fragility and blood viscosity.

WARNING: Consult your doctor before use when taking anticoagulant or antiplatelet drugs. Do not take during pregnancy and breastfeeding.

Ingredients: Alcohol, bio, glycerol, Ginkgo Bio PSC® (Ginkgo biloba L.) 5% buds.
