

## Psc Prostatto Depurato 50 ml

EAN: 8023966994260 FABRICANTE: FORZA VITALE

*Food supplement made from concentrated redwood and banana derivatives.*

### DESCRIPTION

Sequoia jemo derivative is traditionally used in cases of prostatic hypertrophy, disorders related to the urinary system and testicular atrophy.

Counteracts the inflammatory action present in cases of prostatic hypertrophy and adenoma, in association with Ribes Nigrum buds.

Rye root has a selective tropism for the liver parenchyma, allowing a normalization of the tendentially elevated transaminase values in cases of prostatic inflammation.

Chasteberry is used in the treatment of inflammation of the testicles and prostate. Early buds stimulate the production of progesterone, which acts as an antagonist against excess estrogen and its harmful effects on the well-being of the prostate.

Blackcurrant is a powerful systemic anti-inflammatory, with the ability to combat inflammation of etiological origin as well as by chemical, mechanical, immunological or infectious derivation. It is used in multiple cases, including that of inflammation of prostatic adenoma, especially in association with Sequoia gigantea.

The silicon contained in the horsetail plant has the property of increasing tissue elasticity, as well as acting as a biocatalyst for some vital processes. Its action as "cellular cement" makes the cellular tissue more trophic, thus avoiding cellular infiltration into adjacent tissues, which causes various types of neoplasia.

Platanus orientalis buds have the important action of neutralizing hyper-gamma-granulosnemia, reducing in particular a-granulosns, which represent a marker for prostatic adenoma.

Rosemary buds are indicated in andropause in men; their action is aimed at improving prostatic congestion and restoring its tone. It can have a positive effect on libido and erection.

**Ingredients:** Alcohol, glycerol, Organic Redwood\* (Sequoiadendron giganteum J. Buchh) young shoots, Organic Rye\* (Secale cereale L.) roots, Organic Chasteberry\* (Vitex agnus-castus L.) young shoots, Organic Blackcurrant\* (Ribes nigrum L.) buds, Organic Horsetail\* (Equisetum arvense L.) young shoots, Organic Plantain\* (Platanus oritnalis L.) buds, Organic Rosemary\* (Rosmarinus officinalis) young shoots.

\*PSC (Plant Stem Cells) plant stem cells
