Food supplement with Eucalyptus essential oil.

DESCRIPTION

Eucalyptus essential oil (*Eucalyptus globulus*) is a wonderfully versatile and useful essence obtained by steam distillation of the leaves and younger twigs of the plant. It refreshes the body in summer and protects it during winter. It is anti-inflammatory, antiseptic, antibiotic, diuretic, analgesic and deodorant. The main phytochemical constituent is 1,8-cineole or eucalyptol (70-95%). A unique property of eucalyptus is that it is effective for every type of fever, from puerperal fever to malaria, from intermittent fever to measles to those that manifest themselves violently (flu).

Respiratory system: reduces and facilitates secretions in colds, bronchitis and sinusitis, helps reduce inflammation and soothe irritation of the mucous membranes.

Urogenital system: cures inflammation of the urethra, cystitis, discharge, nephritis.

Digestive system: helps eliminate intestinal worms and parasites.

Skin: good as a disinfectant and healing agent, stimulates blood circulation; soothes burning caused by insect bites.
