*Food supplement with Sage essential oil.*

### DESCRIPTION

Sage essential oil has antimicrobial action. It contains rosmarinic acid and picrosalvin, with antioxidant, bitter-tonic and stimulant action in dyspeptic forms and gastrointestinal atony, particularly in subjects who are physically and intellectually fatigued. Emmenagogue, capable of regulating menstrual flow and soothing menopausal pain; activities due to the probable presence of estrogenic fractions. The antihypertensive activity has been proven, mainly due to its essential oil, capable of paralyzing the peripheral nerve endings of the sweat glands; a central mechanism of action is also assumed. Digestive system: combats gastrointestinal inflammation, stimulates appetite. Respiratory system: excellent against excessive production of catarrh. For women: promotes the onset of menstruation, slows the flow of breast milk, disinfects the genital system.

### Aromatherapy references

The sense of justice of Jupiter is joined by the strength of Mars, giving vigor in a balanced way. Mars acts both in its domicile (Scorpio - Bladder) and in the sector where it is exalted (Capricorn - Gallbladder) while Jupiter strengthens its main domicile (Sagittarius - Liver). The combination of Jupiter and Mars suggests a parallel with Anise, where the signature is Jupiter - Venus; therefore, Mars and Venus are in fact complementary. Jupiter, on the other hand, governs the hypophysis, while Scorpio represents the female gonads.

The potential for Salvia to interact with the endocrine system makes it more suitable for hormonal crises, climacteric syndromes or other menopausal ailments.

**Ingredients:** Alcohol, Sage (*Salvia officinalis* L.) ae 5%.
