

Sys Aglio (Garlic) 50 ml

EAN: 8023966700076

FABRICANTE: FORZA VITALE

Garlic Food Supplement, promotes regular blood pressure.

DESCRIPTION

In folk medicine, it is used in infectious diseases of the respiratory tract, as a vermifuge and in digestive problems. It is believed that garlic has a positive effect on the scalp and counteracts hair loss.

Official doctors admit that, as a long-term medication, it reduces the risk of a new heart attack in heart patients by stimulating the immune system; it also has a mild antibiotic effect.

Garlic dilates peripheral blood vessels, lowering blood pressure. It also regulates blood sugar levels and can be used in senile diabetes.

The main active substances are: allicin, with two S atoms (sulfur, responsible for its smell) with an antibiotic effect, vitamins A, B1, C and substances that have an effect similar to male and female sexual hormones, finally ferments, choline, iodine and traces of Zn and Se.

Ingredients: Water, alcohol, Garlic (*Allium sativum* L.) bulbs 20%, honey.
