Condurango Food Supplement, promotes digestive function.

DESCRIPTION

It is a plant typical of Ecuador and South America. The most commonly used part of the plant is the bark, which has a cinnamon-like scent. It contains bitter glycosides (condurangin A), phytosterols, triterpenes, resins, an essential oil, phenols and calcium oxalate.

Its traditional applications are useful, such as stomachic and diuretic, as well as adjuvant to increased circulation.

Excessive doses may cause seizures or eye discomfort.

It has analgesic properties and is used in traditional Latin American medicine as a bitter eupeptic, in dyspepsia and gastric conditions.

Ingredients: Water, alcohol, Condurango (Marsdenia condurango Nich.) bark 20%, honey.
