

Fucus Food Supplement, promotes the stimulation of metabolism.

DESCRIPTION

It is a greenish seaweed that is very rich in iodine, which is why it stimulates the thyroid and metabolic processes aimed at reducing excess fat and calories. With laxative, emollient, expectorant and slimming properties, the stem of this seaweed is used. It can be useful as an adjuvant in: obesity, chronic constipation, lung conditions, bulimia, immune depression, cellulite.

The immunomodulatory activity is due to mucopolysaccharides, while polyphenols and sulfur metabolites act synergistically as diuretics.

Ingredients: Water, alcohol, Fucus (Fucus vesiculosus L.) stem 20%, honey.
