Fran Beth SL was born in 1990 due to Francisco Bethencourt's concern to bring to the market specific products for a large number of people with diverse pathologies. Once the company was consolidated with quality products, and in order to improve its products, it was inclined to control its manufacturing and packaging, that is, control the production process.

DESCRIPTION

The company was founded more than twenty-five years ago and they continue to work for the population that has various pathologies, producing food supplements themselves. They currently have their own range of products and are present both nationally and internationally.
