

The synergy of plants present in this Detox makes it especially suitable for the purification of the lymphatic system and, therefore, for all problems related to a decrease in immune defenses.

DESCRIPTION

In which cases is Mech Depurative recommended?

It is recommended after diets to lose weight, after pharmacological and antibiotic treatments, in cases of cystitis and candidiasis, as a preventive measure in autumn, for people subjected to high levels of work or training stress.

Burdock has a purifying effect that is reflected in the skin, while acetosella is rich in minerals and vitamins and acts in the elimination of body fluids.

What is the method of use of Depurative Mech?

It is recommended to dilute 30 to 60 ml in a 1.5 liter bottle of water to consume during the day.
