EAN: 5019781020805

FABRICANTE: HEALTH AID

*Kelp is a food supplement based on algae of natural origin from Health aid laboratories. It is indicated for the growth, development and well-being of our skin, as well as for the control of the thyroid and the normal functioning of the nervous system.*

### DESCRIPTION

**What is it and what is Kelp (iodine) Health aid for?** It is a food supplement of natural origin rich in iodine. Kelp is a set of brown algae of the Laminaria genus that provide alginates, polysaccharides, chlorophyll and minerals. Kelp or iodine protects from the adverse effects of heavy metals and radiation, purifying these toxins from the body.

**What benefits can Kelp (iodine) Health aid bring us?** Kelp or iodine from Health aid has benefits for the nervous system, skin, thyroid and weight control. Iodine plays a very important role in our body for general well-being. The thyroid uses it to produce hormones, specifically thyroxine and tri-iodothyroxine, which are responsible for burning fat and energy in our body to release energy. Iodine is also used by our body for the growth, development and well-being of our skin.

**What uses does Kelp (iodine) Health aid have?** The uses of Kelp or Health aid iodine are as an antioxidant and to keep the nervous system healthy.

**What indications does Kelp (iodine) Health aid have?** Kelp from Health care is indicated for people with thyroid problems, people who feel exhausted and weak. It is also indicated to maintain healthy skin.

### What side effects does Kelp (Iodine) from Health aid have?

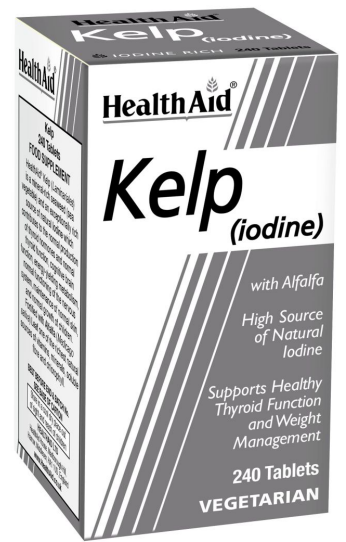

- Too much iodine can lead to a thyroid imbalance.
- Iodine overdose leads to an increase in acne.
- If these algae are collected in a polluted area, they can present arsenic toxicity, a substance that, whenever taken in too high amounts, can become lethal. Hence the importance of acquiring them through a trusted brand.
- Be careful to check that you are not allergic to any of its components before you start taking the supplement. Despite this, and if once you consume it you notice an allergic reaction, you should stop taking it immediately.
- Algivits are a blood thinner and as such should not be taken in combination with aspirin or any other drug intended to lower blood pressure.
