Botanical name: Boswellia carterii. Origin: Somalia. Main active ingredients chemotypes): ?-Pinene. Extracted part of the plant: Resin.

DESCRIPTION

MAIN PROPERTIES:

- Healing.
- Pain relieving.
- Antidepressant.
- Expectoant.
- Immune stimulant.

Oil for postoperative scars:

Ingredients :

- 8 drops AE Incense.
- 5 drops AE Geranium.
- 2 drops AE Yellow Immortelle.
- 10 ml. AV Rosehip.

Application :

Apply two or three drops to the scar three to six times a day. When the scar is still covered or they still do not recommend applying anything on it, some drops around the dressing, without touching the scar, twice a day, will help reduce the inflammation.

GENERAL TIPS:

It is essential in the face of an altered nervous system: depression, stress, anxiety, insomnia. But we must not forget about it for the care of scars in general, but those from operations (especially oncological) in particular. And in cases of respiratory problems that somatize nervous stress.
