*Himalaya was born out of a young man's curiosity for the Rauwolfia serpentina plant. From this plant, it manufactured the world's first natural antihypertensive drug, Serpina, which is made from 100% plant active ingredients.*

### DESCRIPTION

Himalaya was born in 1930 by the effects of a young man when he saw that elephants calmed down when eating the Rauwolfia serpentina plant. After four years of research, he decided to study and later manufacture the first antihypertensive on the market, 100% NATURAL, called Serpin.
