## Holle Goat Milk Formula 4 (from 12 months), 400 g

EAN: 7640230491891    FABRICANTE: HOLLE

**Important notice:** Holle organic infant goat's milk is a food for healthy babies and is not always accepted by the nutritional system of babies who have cow's lactose intolerance, since cow's milk and goat's milk have some protein components. equal and an intolerance or allergic reaction to both types of milk may develop.

If your baby has already shown to have an intolerance to cow's milk or it is doubtful that he or she may have one, you should consult your pediatrician before giving Holle organic infant goat's milk.

### How should I use this product?

Put hot water in the bottle, it must have a temperature of 50° and it will fill up to half of the bottle.

Then the mixture will be incorporated, using the measuring spoon. Then finish filling the bottle with the rest of the hot water. Shake well and let it rest until it reaches a temperature of approximately 37°.

Once you have followed the steps, it will be ready to eat.

If in doubt, more specific instructions are on the back of the box.
