

Olioseptil Sinus 15 capsules

EAN: 3700225600333 FABRICANTE: INELDEA

It participates in the sanitation and optimal functioning of the respiratory system.

DESCRIPTION

- Participates in the sanitation of the respiratory system
- Helps clear the airways

Product Features: L-VCaps® PATENTED TECHNOLOGY:

L-VCaps® patented vegetable capsules promote the preservation and assimilation of essential oils for optimal efficiency.

Food supplement based on essential oils: Peppermint essential oil, which participates in the sanitation and optimal functioning of the respiratory system.

OLIOSEPTIL® Sinus is a complex of 100% pure, natural and chemotyped essential oils, micro-emulsified on a support of cold-pressed olive oil, in a vegetable capsule. This complex mainly contains peppermint essential oil, which contributes to the sanitation and optimal functioning of the respiratory system.

Pack of 15 vegetable capsules in blister pack

Directions for use: 1 capsule in the morning, at noon and in the evening before meals for 5 days. For sensitive areas: 1 capsule per day for a 15-day program. Renew several times a year.

Recommendations: Consume preferably before the expiry date on the packaging. Keep out of reach of children, heat and moisture. Consume as part of a varied and balanced diet and a healthy lifestyle. It is recommended not to exceed the recommended dose. Reserved for those over 15 years of age. Not recommended for pregnant and lactating women without medical advice.

Ingredients: Emulsifier: Soy lecithin; Vegetable capsule (hypromellose); Synergistic complex of botanically and biochemically defined essential oils, 100% pure: Rosmarinus officinalis (branches), Siberica Abies (needles), Melaleuca quinquenervia (leaves), Cinnamomum camphora (leaves), Mentha arvensis (leaves), Citrus limonum (peel), Eugenia caryophyllus (needles); First cold pressed olive oil.
