

Bexident Anticaries toothpaste 125 ml 20% Free

EAN:

FABRICANTE: ISDIN

Triple anti-cavity action, with Cranpearls Tech®. The first anti-caries with Cranpearls Tech technology that provides a triple anti-cavity action and prevents the colonization of bacteria.

DESCRIPTION

Benefits

Bexident® Anticaries is the first anticaries that contains Cranpearls Tech®, an innovative combination of sodium fluoride and cranberry extract that provides a triple anticaries action and prevents the colonization of bacteria even in the most difficult to access areas. In this way, bacteria are prevented from forming a biofilm or precursor layer of bacterial plaque, thus protecting teeth and gums. Cranberry extract, a natural component whose active substance is proanthocyanidins, has been shown in several studies to have an anti-adhesive, antimicrobial and antioxidant effect, inhibiting the formation of bacterial plaque and maintaining the pH of the oral cavity.

How to use

Use 3 times a day after each meal.

Composition

- Cranpearls Tech 0.575% (2500ppm F⁻).
- Panthenol 0.5%, Vitamin E Acetate 0.15%.
- Xylitol 1%.

Flavored bioadhesive excipient csp 100g.

Without gluten. Without alcohol.
