Sunscreens 5 Star Daily Protection

5 Star Daily Protection sunscreens for daily use provide high UV protection tested in real conditions of high solar radiation. They do not irritate the eyes, are oil control and are highly tolerable on all skin types. They are also part of the ISDIN commitment to projects for the care of seas and oceans.

Fight the signs of photoaging

Age Repair Color SPF 50 has triple anti-photoaging action and protects the skin from pollution and solar radiation.

Advantages:

- **Protects** . Protect your skin from the sun and pollution thanks to its high SPF 50 UV protection.
- **Repair** . Its formula with DNA Repairsomes® helps repair the visible signs of accumulated sun damage at the cellular level.
- **Reverts** . With ingredients that combat the loss of collagen in the skin and help reverse the visible

¹ Dermatological and ophthalmological evaluation of the efficacy and safety of Age Repair Color under real conditions of use in 30 women (35-60 years) with mild photoaging and atopic-prone skin for 28 days. Data on file, 2023.

Combination of anti-aging and antioxidant active ingredients

The Age Repair Color formula contains a unique combination of anti-aging active ingredients and antioxidants that combat the signs of premature skin aging and help repair cellular damage caused by the sun.

- DNA Repairsomes®. ISDIN patented technology that helps repair visible signs of sun damage at the cellular level.
- Q10 peptide. Promotes the natural cycle of coenzyme Q10, improving the luminosity and appearance of the skin.
- Collagen Booster Peptide. Fights collagen loss, helping to reduce the appearance of wrinkles.
- Hyaluronic acid. Intensely moisturizes and improves skin elasticity.

Daily use for protected and unified skin.

How to use Age Repair Color Fotoultra?

Apply Age Repair Color SPF 50 generously to clean, dry skin half an hour before sun exposure and as the last step of the routine, before makeup. Reapply every 2 hours and after sweating, swimming, bathing or towel drying. Reducing the amount of product reduces the protection factor.

Add Age Repair Color SPF 50 to your routine. Include Age Repair Color SPF 50 in your daily routine to keep skin protected and with an unified tone in 5 easy steps.

1. Cleaner. Use your usual cleaner.
2. Outline. Apply your eye contour.
3. Serum. Boost your routine with a concentrated serum.
4. Moisturizing. Seal your face with a moisturizer.
5. Sunscreen. Protect your skin with Age Repair Color SPF 50.

Frequent questions

- **How is Fusion Water Color SPF 50 different? Both have the Fusion Water Color SPF 50 texture, but Age Repair Color SPF 50 also has anti-photoaging action.**
- **What age is it recommended for? It is advisable to start using Age Repair Color SPF 50 from the age of 25, when the first visible signs of aging begin to appear.**
- **Will I also need moisturizer? It depends on the needs of each skin type. Age Repair Color SPF 50 contains moisturizing agents, but you can include a moisturizing cream before applying sunscreen if you consider it necessary.**
- **Can it be used on the beach? Yes, thanks to its high UVB protection, Age Repair Color SPF 50 is suitable to prevent sunburn during long exposure to the sun.**
