

## ECO Dishwasher Salt Biobel 2 Kg

EAN: 8421427065410 FABRICANTE: JABONES BELTRAN

*Salt for dishwashers is sea salt, from the Ebro Delta. Its use is recommended in all dishwashers to protect both the dishwasher and the cookware itself.*

### DESCRIPTION

#### What is Biobel dishwasher salt and what is it for?

Biobel Dishwashing Salt is a natural product that comes from the sea. It is 100% pure salt, without additives, obtained from the Spanish Salt Flats located in the Ebro Delta, a Biosphere Reserve.

This salt gradually dissolves during the washing process in your dishwasher, helping to protect both the machine and your dishes from the damaging effects of limescale. In addition, it acts by regenerating the ion exchanger of the dishwasher, improving its performance.

It is important to mention that Biobel dishwasher salt has been certified as a natural detergent by ECOCERT Greenlife. This means that it meets the standards of sustainability and respect for the environment established by this certification.

#### What is the composition of Dishwasher Salt?

- >30% sea salt
- 100% of the ingredients are of natural origin.

#### How should I use dishwasher salt?

Fill the salt tank of your dishwasher following the manufacturer's instructions. Store in a cool and dry place.
