DESCRIPTION

What is the ECO Biobel Manual Dishwasher and what is it for?

The 1L Biobel Manual Dishwasher is a highly effective product designed to clean, degrease and shine all types of kitchen utensils. Its formula is made up exclusively of ingredients of vegetable origin, without containing petrochemical or animal origin elements.

This dishwasher is especially gentle on the skin, providing care and protection for even the most delicate hands. In addition, it is respectful with the environment, since its pleasant fresh aroma comes from lemon essential oil.

In addition, the Biobel manual dishwasher is certified as a Natural Detergent by ECOCERT Greenlife. This guarantees that it meets ecological and sustainability standards, offering an environmentally friendly option.

What is the composition of the ECO Biobel Manual Dishwasher?

>30% water, <5% amphoteric, anionic and nonionic surfactant of vegetable origin, vegetable alcohol, vegetable glycerin, lemon essential oil and citric acid. Contains: limonene and citral (essential oil components). 100% of the ingredients are of natural origin.

How is the ECO Biobel Manual Dishwasher used?

Apply the product directly to the slightly damp sponge. Repeat when the foam starts to disappear. Do not overdo it, not by making more foam it washes better.
