

## Hepabell 60 capsules of 720 mg

EAN: 8437011373854 FABRICANTE: JELLYBELL

*Hepabell is a supplement that combines several natural ingredients with purifying and liver-protecting properties.*

### DESCRIPTION

Hepabell supports liver function, facilitates the digestion of fats and protects the body from toxins.

### Amount provided per daily dose (2 capsules):

- 400 mg of dry extract of black radish (*Raphanus sativus*).
- 300 mg of dry extract of Artichoke (*Cynara scolymus*).
- 200 mg of dry extract of Desmodium (*Desmodium adscendens*).
- 100 mg of dry extract Dandelion (*Taraxacum officinale*).

### Black Radish

Black radish is a variety of common radish, this vegetable has important nutritional qualities. Among its nutrients, organic sulfur stands out, traditionally used for liver and gallbladder purification. It is an excellent aid for liver purification.

### Artichoke Concentrate

Among its main components, it is worth highlighting Cynarin, this bitter principle favours biliary function, helping with the digestion of fats.

Its content of caffeic, caffeolquinic, linoleic and oleic acids also contribute to its hepatoprotective power. Its choleric effect stands out, that is, it stimulates the production of bile and expels fats through bile.

### Desmodium dry extract

Numerous clinical trials carried out in France, England and Canada have confirmed the properties of this plant. Its ability to normalise elevated levels of liver enzymes. Its relaxing action on smooth muscle fibres. Its bronchodilator and also antihistamine properties have been proven.

### Dandelion dry extract

It is a purifying plant, indicated to purify the body of toxic elements. It can act on the liver, kidney and gallbladder, and with its diuretic effect it prevents the appearance of kidney stones. It is also a digestive tonic against constipation and alcohol hangovers.

### Instructions for use

Take 1 capsule with water after the 2 main meals.
